# STAR GAZING PARTY

Reach for the stars! Add a little sparkle to your evening with a private star gazing party for you and your friends. The sky's the limit with an astronomy expert and world-class photographer who will provide you with a crash course in seeing stars and constellations. Sirius, Saturn, and the Milky Way? They're up there! With his expertise, it won't be long before you'll be able to find your own way around the heavens.

- Gather up the gang (up to 50 people) in your backyard or a location of your choosing
- Learn about the stars and constellations from an astronomy expert
- Experience the night sky through the lens of a state-of-the art telescope and digital camera
- See near and deep space objects, find stars with planetary systems, and more
- Includes all telescopic and digital equipment as well as workshops on how to use your own equipment, if you'd like
