

SCIENCE UNDER SAIL

Ahoy mate! Explore the science of the sea with a one-of-a-kind conservation expedition aboard a sailboat specially designed for ocean research. Discover how marine biologists study the sea life of Monterey Bay, one of the largest and richest marine protected areas in the country. Whether it's pulling samples of plankton or assessing the declining number of sea otters, it's a memorable voyage that offers hands-on exposure to the ocean and its creatures.

- Head out of the harbor aboard a 65-foot eco-friendly sailboat
- Take a turn at the helm and learn to steer and navigate in the water
- Work alongside a team of marine naturalists on a variety of projects that concentrate on critical ocean issues
- Learn about marine life habitats in Monterey Bay
