

FIRST FLIGHT LESSON

Think you can fly? Start earning your wings! Take your adventurous spirits to new heights with an introduction to flying. Learn the basics of aircraft and what it takes to be a pilot in an hour-long lesson at a recognized, area flight school. Under the supervision of your FAA certified flight instructor, you'll have the opportunity to actually take over the controls and fly a real airplane. If you like it, keep flying! This flight lesson can be fully applied toward earning a private pilot's license. Perfect for serious contenders and fly-by-night pilots alike.

- Begin with a safety briefing and ground instruction from an experienced flight instructor
- Learn takeoff procedures, basic turning maneuvers, and the complexities of landing
- Choose an aircraft – such as a Cessna or a Citabria – in which to pilot your own destiny
- Fly a plane over a scenic route at a low altitude under the eye of your certified instructor
