

UNDERWATER PHOTOGRAPHY

Test the waters and make a splash with a lesson in underwater photography. It's easier than you think to capture the beauty and mystery of the underwater world. A combination of home learning and guided instruction, you'll cover composition, basic shooting techniques, light for shutter speeds, and how to care for your equipment. Then dive into water for a fish eye's view. Capture on camera a variety of fresh water fish - including the prehistoric Paddle Fish - in a scenic old quarry reef.

- Prepare for your dive by completing a series of DVD and workbook exercises at home
- Meet your instructor on the day of your dive at Haigh Quarry for a short briefing
- Take the plunge and explore a quarry featuring a wide variety of underwater fish
- Includes use of digital equipment, instruction materials and photo certification
