

WWII WAR BIRD RIDE

Fly like a fighter! Travel back in time and experience the aerial action of World War II on a spine-tingling war bird flight. Climb into the cockpit of one of the world's most graceful fighter planes for a rollercoaster ride through the sky. Loops, Cuban Eights, Immelmans - they're just a few of the amazing feats you can experience first hand with an experienced pilot at the controls. From mild to wild, the intensity and level of acrobatics is up to you.

- Meet your pilot at the airport for a short safety briefing and historical overview of how the aircraft was used during WWII and more
- Put on a parachute and climb aboard a 1944 North American AT-6F aircraft
- Loop and roll til your heart (and stomach's) content
- Take over the controls and experience the excitement of flying, if you wish - both the pilot and passenger have a set of controls
- Remember the day with a recorded DVD of your flight from the inside of the plane that commemorates your flight
