

FIGHTER PILOT • TWO MISSIONS

Think you've got what it takes to be Top Gun? Take your training to the next level with a comprehensive fighter-training program that builds on the basics. This advanced mission consists of two assignments: the first flight is a practice session devoted to fundamental maneuvers including formation flight, high and low yo-yos, lead and lag pursuits, displacement rolls, vertical and oblique turns. It will prepare you for your second flight, where you will deploy each maneuver in a variety of tactical situations. Once you have completed both missions you will receive your flight video to commemorate your day.

- Check in to the command post to meet your instructor and get suited up in your flight suit, parachute and helmet
- Report to the flight line, where you will be briefed on mission tactics, maneuvers, safety considerations, and the rules of engagement
- Climb into your aircraft alongside your instructor to begin your mission
- With your hands on the controls, engage in two separate flights, featuring 10 dogfights
- Review your flight post landing and take home your recorded mission as a souvenir

Your Gift Locations*
