

CREATE A SIGNATURE FRAGRANCE

Follow your nose! Step up to the fragrance bar and invent your own scent. Whether it's floral and fruity, spicy or sporty, learn from a seasoned guide how to identify the natural essences that complement your style and personality. You will create two botanical perfumes, one using oil and one using alcohol and then your own one-of-a-kind fragrance. Take all three home to enjoy. Don't forget to give your signature scent a name!

- Arrive at the aromatic apothecary for an introduction to botanical perfumery
- Choose from a wide selection of quality perfume bases and essential oils
- Mix, blend and name your own, individual fragrance with the help of your guide
- Take home the three fragrances that you create and a handout so you can recreate it all at home

Your Gift Locations*

Los Angeles, CA
