

PRIVATE TRAPEZE PARTY

Calling all swingers! Run away to the circus and share the thrill of the flying trapeze. Swing, sway, and experience the art of the flying with a private party at flying trapeze school for you and 5 guests. Learn the basics from an experienced trainer, then work up to more challenging tricks – even try your hand at a release and catch! All sessions are conducted with safety lines and a spotting belt to assure your safety at all times. No experience is necessary – it's an uplifting experience for kids and grownups alike.

- Learn the basics of the flying trapeze from an experienced aerialist
- Begin with a warm-up session and practice swings inside the training facility on the low bar over the mat
- Harness up, climb the platform outdoors, and take the leap
- Experience the thrill and fun of flying through the air in the company of your friends - first by your hands and, if you're ready, attempting knee hanging and even a hand to hand catch with an instructor
- Safety straps and net are always in place
