

MAP AND COMPASS NAVIGATION

Where are you? Backcountry navigation is one of the most important skills you can have when venturing out into the wilderness. Find out how to “stay found” with a basic introduction to map and compass skills. A day long class that features both classroom exercises and outdoor fieldwork, you’ll learn from an experienced guide how to explore paths less beaten with confidence and make sure you’re headed in the right direction.

- Begin with a classroom discussion led by a seasoned guide
- Learn to read topographical maps and navigate using a compass
- Practice locating and interpreting your position on a moderate hike
- Put your new skills to the test with a short orienteering exercise
- Includes use of maps, compasses and other navigational tools
