

FIRST FLIGHT LESSON • 40 MINUTES

Think you can fly? Start earning your wings! Take your adventurous spirits to new heights with an introduction to flying. Learn the basics of aircraft and what it takes to be a pilot in a lesson at a recognized, area flight center. Under the supervision of your FAA certified flight instructor, you'll have the opportunity to actually take over the controls and fly a real airplane. If you like it, keep flying! Perfect for serious contenders and fly-by-night pilots alike.

- Begin with a preflight safety briefing and ground instruction from an experienced flight instructor
- Climb aboard a Varga VG-21 and take to the skies
- Learn takeoff procedures, basic maneuvers such as turns, climbs and glides, and the complexities of landing
- Fly a plane over a scenic route at a low altitude under the eye of your certified instructor
