- Suit up with goggles, jumpsuit, and harness and get a short lesson in skydiving basics
- Board a plane and start the climb, watching rivers carving their way through acres of farm fields, forests, and towns
- At 10,000 - 14,000 feet, hook up to the instructor's harness, take a deep breath, then jump
- After 30-60 seconds of freefall, the instructor opens the parachute and steers to a safe landing
