

LLAMA LUNCH TREK FOR TWO

Take a llama to lunch along with a friend! Llamas often hum softly as they hike trails. You could find yourself humming too as you hike at your own pace along hilly trails and wooded paths while a gentle, sure-footed llama carries your gear. Their alertness for anything unusual and keen intelligence make them a perfect traveling companion. Enjoy amazing scenery, a chance to observe the native wildlife, and fresh mountain air as you learn how llamas are trained to serve a number of purposes. Don't forget your camera!
