

LEARN A NEW CRAFT • PRIVATE LESSON

Feeling crafty? Try a private crafting class. Knit could happen to you. Or perhaps you'd prefer something sew-inspired. Whatever craft you crave, choose from one of four lessons including sewing, knitting, crocheting or jewelry making. Designed for one to two people, classes are taught in a workshop environment by a skilled instructor.

- Choose the craft of your choice -- sewing, knitting, crocheting or jewelry making -- and schedule your private lesson
- Arrive at the studio on the day of your class inspired and ready to learn
- Master the basics or take your craft to the next level in a hands-on session with a seasoned instructor
- Leave with a new skill and a finished (or almost finished) sample of your first project
- All equipment and materials are provided
