

## ART OF BLACKSMITHING

Forge ahead! Discover the practical beauty of blacksmithing in a private workshop with a skilled artist. Experience the smell of hot metal, the roar of the forge, and the ring of the anvils under the hammer's blow. Sparks will fly and the temperatures will rise as you learn to twist, scroll, and polish a bar of steel into a work of art. Your instructor will lead you through the seven-step process and teach you how to hand forge a personalized letter opener.

- Begin with an introduction to the art, safety instructions and an overview of the principles and process
- An experienced blacksmithing artist will demonstrate the seven steps
- Try out what you've learned by forging a bar of metal into a custom letter opener with shining blade and twisted handle
- All equipment and materials are provided
