

## RIVER PADDLING & CRANE VIEWING

Ride with the tide! Pick up your paddle and go with the flow on a guided excursion along the gentle Kankakee River for two. Bring your binoculars! The water's calm and there's plenty of bird watching to do. Every fall, as the scenery bursts with color, the river becomes a haven for cranes. Their long necked beauty and spectacular mating dances have made them highly symbolic birds in many cultures. Beginner and advanced paddlers alike will enjoy this relaxing journey along the water.

- Meet your guide at the boathouse to gear up for your adventure
- Enjoy a leisurely paddle along the Kankakee River
- Swing by the preserve to experience the sunset spectacle of up to 15,000 cranes returning from their daily feeding grounds
- Includes basic instruction and all paddling and safety equipment for two
